

Fact Sheet: 900 Innes Remediation

Grantee: City and County of San Francisco,
Recreation and Park Department

Amount: \$4,998,600

Location: 900 Innes Ave, San Francisco, West Bay
Region

Project Phases Funded by this Grant:
Planning; Permitting; Design;
Construction/Implementation

Measure AA Goals Served: Safe, Clean Water and
Pollution Prevention Program; Vital Fish, Bird and
Wildlife Habitat Program; Integrated Flood
Protection Program; Shoreline Public Access
Program.

Summary:

This project will enable the City and County of San Francisco, Recreation, and Park Department to remediate and restore soft-bottom intertidal and subtidal habitat, restore wetland functions, improve ecosystem services, and enhance recreation at the 900 Innes site, which the City, through its Recreation and Park Department (SFRPD), acquired in 2014, and is located in the Bayview-Hunter's Point neighborhood.

This work represents the first phase of a multi-phased redevelopment plan for the 900 Innes and India Basin Shoreline Park properties.

This project will reduce pollutant loads at the site to allow for larger restoration and redevelopment, as well as ensure the safety of future park users, visitors, construction workers, and ecological receptors. The overall vision for the 900 Innes/India Basin redevelopment, following this current proposed, and subsequent phases, will result in much needed parks, clean waterfront, and public access for the Bayview Hunters Point neighborhood, a disadvantaged community as identified via CalEPA's Enviroscreen tool.
