I. Introduction

This document outlines the approach planned by the Public Information Officer of the San Francisco Bay Restoration Authority (Authority), with input from the Advisory Committee’s Ad Hoc Subcommittee on Communications, to inform and involve the public and stakeholders as Measure AA taxes and funds from any future measures or authorizations are collected and awarded to restoration projects around the Bay. The goals of the plan and principles guiding its implementation are discussed. The plan lists key audiences and key messages; outlines the package of
outreach tools and strategies, and outreach evaluation methods that will be undertaken; and it lays out roles and responsibilities and a general work plan for the effort.

II.  Goal
To use effective and inclusive communications practices to broaden awareness of the Authority’s work, impact and grant program.

III.  Outreach Goals
- **Educate the Public about the Authority’s Work and the Benefits of Restoration:** Amplify the message that “Restoration is Working” and provides benefits for people and wildlife. Highlight projects that are underway and what they are expected to achieve; demonstrate the benefits that Measure AA is providing to communities.
- **Show Accountability and Good Governance:** Expand awareness and ensure transparency about the Authority’s grant management and oversight structure. Show the voters that funds are being spent effectively and in conformance with legal requirements.
- **Build Awareness among Potential Grantees:** Let potential grantees know this funding source exists and will be available for at least 20 years. This provides time to build capacity among groups that are not yet experienced in grant management.
- **Educate Elected Officials about the Need for Additional Funds:** Keep a high profile among elected officials to foster understanding and support for future funding measures and appropriations.

IV.  Resources
To deliver the activities outlines in this plan, the Authority can draw upon:

- The Authority PIO\(^1\), currently budgeted at 12% of a full-time equivalent (FTE) staff position
- Other Authority staff, all of whom work only part-time on the Authority and none of whom have communications and outreach included in their assigned duties
- The Advisory Committee members, as their time allows
  - The resources of their parent organizations when appropriate
- The Governing Board, to be deployed when strategically necessary

---

\(^1\) The PIO of the State Coastal Conservancy provides PIO services to the Authority under the Conservancy’s joint powers agreement with the Authority.
- Fiscal Year (FY) 2018/2019 communications budget of $25,000, most of which is earmarked for website redesign and logo work

V. Audiences
Major categories of interested and/or potentially affected stakeholders include:

External Stakeholders
- Existing and potential grantees
  - Non-profit organizations – wildlife & habitat restoration, environmental justice, recreation & public access
  - Tribes
  - Cities
  - Counties
  - Bayshore Landowners
- Bay Area taxpayers
- Media
- Shoreline cities
  - Residents
  - Planners
  - Electeds
- Local government
  - Elected officials & staff
- State elected officials & staff
- Federal elected officials & staff
- Federal, state and regional regulators
- Economically Disadvantaged Communities (EDCs)²
  - Community Leaders
  - Community-based organizations
- Business organizations, owners and employees
  - Business community: Silicon Valley Leadership Group, Bay Area Council

² EDCs are a communications audience, but they could also be included through a community outreach approach. See attached memo.
### VI. Key messages and themes

The table below highlights major themes of the Communication Plan and corresponding key messages. Short-term messages and updated information is provided in a quarterly SCVWD fact sheet.

<table>
<thead>
<tr>
<th>Key Messages</th>
<th>Messages</th>
</tr>
</thead>
</table>
| **The Bay is for everybody / Sharing our home (with each other, with wildlife)** | o These are public resources for all to enjoy, these projects benefit everyone.  
   o We value living in a beautiful place.  
   o “Sharing our home” (with other species).                                      |
| **Restoration is working**                                                 | o Wildlife is coming back to the Bay  
   o Communities are being protected from flooding and sea level rise  
   o Residents are enjoying these natural spaces  
   o Other benefits include providing benefits related to human health, recreation, water quality, and job creation. |
| **Measure AA and the Authority are achieving restoration outcomes, quickly and efficiently** | o Measure AA started a **new era** of restoration in the Bay, with unprecedented long-term, locally sourced, financial stability to enable long-term planning  
   o Funding raised by Measure AA is being distributed quickly, efficiently and fairly throughout the region  
   o However, more funding will be needed to deliver the full ecological, recreational, water quality and flood protection benefits of a fully restored bay. |
## VII. Communications Tools and Channels

The Plan relies on a variety of different tools to keep stakeholders and the broader public informed and engaged in the Authority’s work. These tools include:

<table>
<thead>
<tr>
<th>What</th>
<th>Notes</th>
<th>Audience</th>
<th>Maintained by</th>
</tr>
</thead>
</table>
| Contact Databases     | - The Authority maintains a contact database for distribution of all electronic material and announcements. This list is comprised of people who have signed up on the Authority’s website.  
                        - The Coastal Conservancy has a database of 3,000+, which can be sorted geographically and could be used to promote Authority events and announcements.  
                        - The parent organizations of AC members, as well as Board members, may have access to additional contact databases.  
                        - The Metropolitan Transportation Commission (MTC) also maintains a mailing list.                                                                                                               | Audiences that are already engaged and invested in the Authority’s work (or the work of its partner orgs.) | Self-subscribing. Authority staff can send to Authority mailing list. AC members responsible for access to their orgs’ lists |
| Website               | The Authority’s website, sfbayrestore.org, is hosted by MTC. The site is due for an overhaul, which is planned for FY 18/19. The website is the repository of information about Measure AA and the Authority and where Grant Guidelines and RFP documents are hosted. | Needs to serve a broad audience of people who come to it cold knowing nothing about the Authority as well as grant applicants who need to find info and documents easily | Authority PIO, clerk, grant program manager, MTC |
| Social Media          | The Authority has a Facebook page; it does not have any other social media accounts at present.                                                                                                            | Generally aimed at the public; also a useful place to tag other                                                                 | Authority PIO                                                                 |

---

3 MTC provides staff services to the Authority under MTC’s joint powers agreement with the Authority, including program and project management by the staff of the San Francisco Estuary Partnership and financial management by other MTC staff.
<table>
<thead>
<tr>
<th><strong>Partner and Potential Future Channels Not Currently in Use</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>• Websites of partners, AC parent organizations and grantees</td>
</tr>
<tr>
<td>• Social media of partners, AC organizations and grantees</td>
</tr>
</tbody>
</table>
• E-Bulletin newsletter (piggyback on existing newsletters such as San Francisco Bay Joint Venture and/or create Authority newsletter)
• Advertising in targeted media
• Geotargeted online ads, e.g., Google Adwords

VIII. Communications Principles
The following principles are designed to keep consistency in our communications practices.

• Communications will be in line with Authority central messaging and endorsements
• Information about how to stay informed about project activities will include sharing:
  o Current contact information
  o How to sign up for email updates
  o Information about links to web-based sources of information
  o Information on how to access important project documents.
• Outreach messages and techniques will align with project milestones and schedule, and may change depending on the project progress.

IX. Risks
As with any communications plan, there are risks and known vulnerabilities.

1. The foremost vulnerability in our current approach is that all of our materials are in English, our meetings are conducted in English without translators available, our grant documents are in English and we have no mechanism to review submittals in any language other than English. The Authority has not currently budgeted for a translation service of materials or at meetings.

2. To engage with the Authority requires the ability to access and use a computer with internet connection; we have not made materials available offline. Nor have we deliberately applied any accessibility best-practices for people with disabilities to our materials or website.

3. Further, our public meetings are held during the work week and we have not made stipends, childcare or food available to the public.

The barriers to access above are common to many public agencies. Though we are not aware that they have reduced engagement or made us a less effective public body, we can’t prove that negative. It is something to be mindful of and perhaps engage in a conversation about equity and inclusion.
There is also a risk that ineffective communication – saying the wrong thing to the wrong audience – could diminish support for a project or the Authority as a whole. Restoration projects often require a short term or permanent change in land use that could cost communities’ support. To counter this, we should consider community support and outreach and engagement planning when reviewing grants.

Bay Area property owners will see the $12 tax long after they’ve forgotten the Clean and Healthy Bay campaign; if we do not provide a regular, reliable flow of information on how this money is supporting the region in a way the benefits residents, we could lose voter support by the time the renewal of AA or other funding measures go on the ballot.

X. Activities, Roles and Responsibilities

Communications activity for the Restoration Authority will be overseen by the Authority’s PIO, with staff and members of the Advisory Committee supporting as and when needed and available.

The matrix below indicates lead and participating/assisting roles for various outreach and engagement tools, events and content, including some ideas for engagement that the current level of communications resource cannot support.

</tr>
</tbody>
</table>
Create content calendar of new stories to write for website and social media topics and themes to focus on | TBD | TBD | TDB | This would be a resource-heavy approach, and not one that our current level of staff time could support

Audience survey on messages that resonate | TBD | TBD | TBD | Test messages with different audiences to see how value of the Authority to the region is changing

**XI. Long Term Communications Planning**

The activities above are achievable in the short term future. Looking further than three years ahead, the Authority should anticipate:

- Regional polling on Measure AA awareness and attitudes.
- Marking milestones (5 years, 10 years) with publicity blitzes measuring effectiveness – number of projects, number of acres restores, amount of money allocated, etc.
- Piggybacking on regional science updates and reports
- Staying flexible and open to new partnerships and considerations as the region changes in the next 20 years

**XII. Evaluation**

The success of the Authority’s communications work can be measures in a number of ways. Below are some suggestions but these metrics should be brought into alignment with those recommended by the AC’s Ad Hoc Subcommittee on Performance Metrics.

- Number of grant applications received each cycle
  - Cross compare where they are from year-on-year to ensure we are reaching all sub-regions of the bay and expanding our engagement with NGOs and agencies serving EDCs
- Number of website visitors
- Audience surveys of recognition of Authority, support of our work, appreciation for wetland habitats.
- New funding allocations from legislature
- Number of project delivered
XIII. Further Recommendations

The need for community outreach and engagement has been identified as a key strategy in achieving Environmental Justice and inclusion of EDCs. This will require sustained effort, a considered strategy and dedicated resources – all of which fall beyond the scope of the Communications Plan and ability of the Authority PIO. For further recommendations on this, please see the Memo on Community Engagement.
